Specitication grade area ights available with IES Type IV distribution. Suited for mounting on the sides of buildings and walls, and for illuminating the perimeter of parking areas. Patent pending management system. 5 Year Warranty.

## Technical Specifications

## Listings

UL Listing:
Suitable for wet locations.

## IESNA LM-79 \& LM-80 Testing

RAB LED luminaries have been tested by an independent laboratory in accordance with IESNA LM79 and LM-80, and have been received the Department of Energy "Lighting Facts" label.

## LED Characteristics

## Lifespan:

100,000-hour LED lifespan based on IES LM-80 results and TM-21 calculations

LEDs:
Multi-chip, high-output, long-life LEDs

## Color Consistency:

7-step MacAdam Ellipse binning to achieve consistent fixture-to-fixture color.

## Color Stability:

LED color temperature is warrantied to shift no more than 200 K in CCT over a 5 year period.

## Color Uniformity:

RAB's range of CCT (Correlated Color Temperature) follows the guidelines of the American National
Standard for Specifications for the Chromaticity of
Solid State Lighting (SSL) Products, ANSI C78.377-
2011.

Construction

## ES Classification

The Type IV distribution (also known as a Forward Throw) is especially suited for mounting on the sides of buildings and walls, and for illuminating the perimeter of parking areas. It produces a semiCircular distribution with essentially the same candlepower a ateral angles from $90^{\circ}$ to $270^{\circ}$.

Effective Projected Area:
$\mathrm{EPA}=5$

## Maximum Ambient Temperature:

Suitable for use in $40^{\circ} \mathrm{C}\left(104^{\circ} \mathrm{F}\right)$ ambient temperatures

## Cold Weather Starting:

The minimum starting temperature is $-40^{\circ} \mathrm{C} /-40^{\circ} \mathrm{F}$

## Thermal Management

Superior thermal management with external Air-Flow fins.

## Housing:

Die cast aluminum with airflow fins for cooling
Lens:
Tempered glass
Mounting:
Slipfitter with $180^{\circ}$ pivot available for mounting on 2 3/8" tenon.

## IP Rating:

Ingress Protection rating of IP66 for dust and water

## Reflector:

Vacuum-metalized polycarbonate

## Gaskets:

High-temperature silicone gaskets

Finish:
Our environmentally friendly polyester powder coatings are formulated for high-durability and long-lasting color, and contains no VOC or toxic heavy metals.

## Green Technology:

Mercury and UV free. RoHS compliant components. Polyester powder coat finish formulated without the use of VOC or toxic heavy metals

## For use on LEED Buildings:

IDA Dark Sky Approval means that this fixture can be used to achieve LEED Credits for Light Pollution Reduction.

## Electrical

## Dimming Driver:

Driver includes dimming control wiring for $0-10 \mathrm{~V}$ dimming systems. Requires separate 0-10V DC dimming circuit. Dims as low as 10\%.

## Drivers:

Constant Current, Class 1, $1560 \mathrm{~mA}, 480 \mathrm{~V}, 50-60 \mathrm{~Hz}$, 480V: 0.79A.

Surge Protection:
4kV
For areas prone to surges, upgrade to 10 kV surge protection.

Optical
THD:
$8.3 \%$ at $120 \mathrm{~V}, 10.5 \%$ at 277 V
Power Factor:
$98.5 \%$ at $120 \mathrm{~V}, 94.0 \%$ at 277 V

## Technical Specifications (continued)

Optical
BUG Rating:
B1 U0 G5

## Other

Buy American Act Compliant:
This product is a COTS item manufactured in the United States, and is compliant with the Buy American Act.

Recovery Act (ARRA) Compliant:
This product complies with the 52.225-21 "Required Use of American Iron, Steel, and Manufactured Goods-- Buy American Act-- Construction Materials (October 2010).

## Trade Agreements Act Compliant:

This product is a COTS item manufactured in the United States, and is compliant with the Trade Agreements Act.

## GSA Schedule:

Suitable in accordance with FAR Subpart 25.4.
Warranty:
RAB warrants that our LED products will be free from defects in materials and workmanship for a period of five (5) years from the date of delivery to the end user, including coverage of light output, color stability, driver performance and fixture finish.
